## WELCOME TO LINZ!

Linz is the third-largest city of Austria and capital of the state of Upper Austria. It is located in the north centre of Austria, approximately 30 kilometres (19 miles) south of the Czech border, on both sides of the river Danube. The population of the city is about 200.000.

The city is now home to a vibrant music and arts scene. Between the Lentos Art Museum and the concert hall "Brucknerhaus", is the culture mile "Donaulände", a park alongside the river, which is used mainly by young people to relax and meet in summer.

Linz was the European Capital of Culture in 2009, along with Vilnius, the capital of Lithuania. Since December 1, 2014 Linz is a member of the UNESCO Creative Cities (UCCN) network as a City of Media Arts. Cities receive this title for enriching the urban lifestyle through the sponsorship and successful integration of media art and involving society in these electronic art forms.

The Ars Electronica Festival is a festival for media art, which includes exhibitions, concerts, performances, symposia and interventions. The Pflasterspektakel, an international street art festival, takes place each year in July all over the city centre. During the Bubble Days in June a number of extreme sports shows, such as aviation performances and a wake boarding contest take place in the harbour of Linz. Other festivals include the Crossing Europe Film Festival, the Festival of the regions and the Open Air music festival "Linz Fest". The most famous festival is, however, the international classical music festival "Brucknerfest", with the Open Air multimedia musical events "Sound Clouds".
