

# Module „Erweiterung des persönlichen Kompetenzprofils“ (Widening the personal competency profile): An excursion to Zagreb

## Topic/Object of Research/Project/Cooperation

Comparing languages, language contacts and language learning in situ, intercultural and interlingual exchange, DaF - DaZ (German as a foreign language - German as a second language)

## Project Description

The excursion to Zagreb creates a new place for learning outside the seminar room and the opportunity to learn in situ. This serves to consolidate already acquired knowledge in the context of the first seminar (“Sprachenvergleich Deutsch – BKS”) and may offer research opportunities for the development of further information on topics like: comparing languages, German as a foreign language, intercultural exchange and multilingualism. When visiting Croatian educational institutions, students will gain insights into the multilingual and polyglot work environment at Croatian schools.

## Duration
